Sample of PAST RESULTS

Racing Secrets, the E-Book, contains over 360 pages of exclusive information.

It is designed to help all people, from beginners to experienced horse racing enthusiasts, to better position themselves in making consistent, long-term profits from their interest in the 'Sport of Kings'.

This Report provides you, the reader with ***A Free Sample Extract*** from the extensive analysis of over 35,000 race results. It contains actual past results from two of the

six Selection Methods detailed within ***Racing Secrets***.

The past results data follows a brief summary of the two Selection Methods, as detailed below:

Capital Growth Selections

The 'Capital Growth' approach to selections and wagering on Horse Racing provides an astonishing 78% Annual Growth Rate on the initial capital invested.

Whilst the example given in **Racing Secrets** uses a starting fund of \$100 for the sake of simplicity... this amount could realistically have equated to a starting fund of well over \$1,000 given the typical amounts of money invested in horse racing by individuals worldwide.

Verifiable past results of the Capital Growth Selection Method, clearly indicate

astounding capital growth in the order of *One Hundred times* the initial investment, over the timeframe of 8 years.

Very few legal investment opportunities provide a likelihood of turning a modest capital investment of \$5,000 into close to \$500,000 *tax free* in the space of 8 years!

Yet, you will find this documented in **Racing Secrets** backed-up with verifiable facts and figures.

Long Shot Specials

Where the Capital Growth Selections focus upon shorter-priced horse racing favourites, ***Racing Secrets*** also provides you with:

- ✓ a range of profitable
- ✓ time-proven Selection Methods,
- ✓ which illuminate many higher-priced runners,
- ✓ including the “Long Shot Specials”.

The Long Shot Specials demonstrate a capacity to pick winners paying up to \$93 for a \$1 win bet, with an overall long-term profit on turnover in excess of 20% for every dollar invested.

This Selection Method has actually provided a previous long term *net profit* of over 636 units, at level stakes betting, based upon some 3,127 real race investments.

A \$100 bet for the win placed on every Long Shot Selection reviewed, would have generated a *net profit* of more than \$63,600, by using this simple betting approach.

That's a remarkable profit result in anyone's book!
